

THE BAR

EL MOJITO HODELPA

Los orígenes del mojito se remontan al Siglo XVI y se le atribuye su creación al famoso pirata inglés Francis Drake en los puertos de la isla de Cuba. Dice la leyenda que así explicaba Drake la receta: "Aguardiente para la felicidad, limón para el escorbuto, hierbabuena para la digestión y azúcar para el paladar".

Inmortalizado por James Bond en su película "Otro día para morir" y el favorito de Ernest Hemingway, hoy en día es una de las bebidas mas famosas.

Preparar el mojito perfecto requiere de precisión y buenos ingredientes. Ya sea que tengas alma de pirata, dotes de escritor o de agente secreto, prepárate para disfrutar de un mojito que siempre recordarás.

THE HODELPA MOJITO

The origins of the mojito go back to the XVI Century. Its creation is attributed to the pirate Francis Drake, in the ports of Cuba. According to the legend, Drake would explain the recipe by saying, "spirits for happiness, lemon juice for scurvy, peppermint for digestion and sugar for the palate".

For a long time, this concoction was known as "The Drake"; later, because of its similarity to the seasoning used for food (mojo), it became known as "Mojito".

Immortalized by James Bond in the film "Die Another Day" and also known as Ernest Hemingway's favorite, The Mojito has become one of the most popular drinks in the world.

To prepare a perfect mojito , precision and right ingredients are required. So if you have the soul of a pirate, the gifts of a writer or a secret agent's cleverness, be prepared to enjoy a mojito you will always remember.
